DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because informal drawings are unclear as seen in Figures 6-8. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

2. Claim 1-17 are allowed.

3. The following is an examiner's statement of reasons for allowance:

In regard to Claim 1, the prior art of record, Okada et al, discloses a method of recording an encoded but stream representing video objects that comprise a sequence of cells together constituting part of an MPEG2 program stream, such as an optical disc wherein the video object comprise a sequence of recorded cells; however, fails to disclose that the video objects are continuously recorded cells each having a unique identification number within a video object as seen in Figure 1 of application.

Additionally, the prior art of record Kikuchi et al, discloses a method wherein data is being reproduced and navigation information is present within the video object; however, fails to disclose that the recorded navigation data within the cells comprises the unique cell identification number. Therefore, it can be seen that the prior art of record fails to teach, suggest or partly disclose a method in combination of the above references a method consisting of :

- *..recording video objects comprising a sequence of contiguously recorded cells, each cell comprising a unique cell identification number within a video object;*
- *recording navigation data within said cell comprising said cell identification numbers, characterized by,*
- *dividing at least one previously recorded cell into new cells and or overwriting at least one previously recorded cell at least partly with a new cell..*

.Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
